

Welcome to the on-line users' guide of QualeAria

[QualeAria](#) is the [Arianet](#) forecast system for the Air Quality in Italy and Europe.

[QualeAria](#) is up and running since 2007 implementing state-of-the-art techniques to describe emission, dispersion and transformation of pollutants in the atmosphere.

The air quality maps are freely distributed on a daily basis at <http://www.qualearia.eu>.
